Deeper Insight. More Grounded Decisions.

Riyadh, Saudi Arabia | 2026

About Us

RASEEN ADVISORY is a strategic and investment advisory firm headquartered in Riyadh and established in 2026. We help clients understand markets, evaluate commercial and investment environments, assess opportunities and risks, and make informed market-entry, expansion and investment decisions through a clear methodology and objective analysis.

Vision

To be the trusted advisory partner behind clearer, more grounded strategic and investment decisions.

Mission

To deliver methodical, evidence-based studies and advice that give our clients deeper insight into markets, opportunities and risks, and support their decisions with practical recommendations.

Core Values

01 **Clarity**
Findings presented in direct, accessible language.

02 **Methodology**
Structured work that follows clearly defined stages.

03 **Objectivity**
Conclusions grounded in evidence, not assumption.

04 **Analytical Precision**
Close attention to data integrity and analytical detail.

05 **Client-Relevant Recommendations**
Outputs shaped around each client's context and goals.

Our Services

An integrated range of advisory services supporting commercial and investment decisions.

01

Market Entry Studies

Assessing the attractiveness of target markets, entry requirements and suitable entry routes.

02

Strategic Advisory

Supporting leadership teams in shaping strategic direction and setting priorities.

03

Investment Opportunity Assessment

Examining opportunities from market and commercial angles and testing fit with investor objectives.

04

Risk Assessment

Identifying commercial, operational and regulatory risks and analysing their potential impact.

05

Feasibility Studies

Analysing whether a project is viable across market, operational and economic dimensions.

06

Business Development

Identifying growth and expansion pathways and routes to customers.

07

Economic Analysis

Interpreting the economic indicators and trends that bear on a decision.

08

Financing Support

Helping prepare the studies and analytical inputs that support financing requests.

09

Investment Portfolios

Advice on analysing and diversifying investment portfolios in line with investor objectives.

10

Restructuring

Reviewing operational and financial structures and weighing options for reorganisation.

Our Methodology

Six sequential stages that turn questions into evidence-based decisions.

1

Define the Study Scope

Agreeing objectives, key questions and the boundaries of the work.

2

Gather Information and Evidence

Collecting and verifying relevant data and sources.

3

Analyze the Market and External Environment

Studying demand, competition, and regulatory and operational factors.

4

Assess Opportunities and Risks

Weighing available opportunities against risks and challenges.

5

Develop Findings and Recommendations

Turning analysis into clear conclusions and recommendations.

6

Deliver Insights and Support Decision-Making

Presenting and explaining results to support the decision.

Sectors

Our studies and advisory work span the following sectors.

01 Real Estate and Development

02 Energy

03 Industry

04 Technology

05 Infrastructure

06 Healthcare

07 Food

08 Diversified Investments

Selected Study Examples

- Competition and pricing.
- Target segments and commercial opportunities.

ETHIOPIA — ADDIS ABABA

إثيوبيا – أديس أبابا

- Market needs.
- Customer access channels.
- Supply chains and import procedures.
- Regulatory considerations and operational risks.

These are illustrative examples of completed studies, not a complete portfolio.

Study Outputs and Value

Practical outputs that help decision-makers move from analysis to action.

01

Understanding Target Markets

A clear picture of market characteristics, environment and the boundaries of the opportunity.

02

Analyzing Competition and Opportunities

A structured reading of the competitive landscape and the opportunities to build on.

03

Evaluating Commercial and Investment Environments

A balanced view of the factors that attract and constrain a decision.

04

Identifying Risks and Challenges

Early identification of potential risks so they can be managed.

05

Understanding Operational and Regulatory Requirements

Clarity on the requirements and procedures for entry and operation.

06

Supporting Strategic and Investment Decisions

Actionable conclusions and recommendations that serve the decision.

Actionable insights. Outputs designed to serve the decision.
